SUMMARY

Proficient MERN Stack Developer with one year of experience in building and maintaining robust web applications. Expert in developing full-stack applications using MongoDB, Express.js, React, and Node.js. Demonstrated ability to design and implement scalable RESTful APIs, dynamic user interfaces, and efficient database schemas. Strong background in working with version control systems (Git) and deploying applications on cloud platforms (Vercel). Adept at collaborating with cross-functional teams to deliver high-quality software solutions, with a focus on performance optimization and user experience.

EDUCATION

Samrat Ashok Technological Institute   **October 2021 - May 2025**
B.Tech in Computer Science & Engineering (CGPA: 6.8)   Vidisha, Madhyapradesh

Saraswati Higher Secondary School   **July 2020 - April 2021**
Senior Secondary (Percentage: 88.2   Satna, Madhyapradesh

WORK EXPERIENCE

Codtech IT solution   **July 2024 - August 2024**
Backend developer Intern   Remote

- Developed and maintained server-side applications using Node.js.
- Implemented RESTful APIs to facilitate seamless communication between front-end and back-end systems.
- Collaborated with the development team to design and optimize database schemas using MongoDB.

Codsoft

Web developer Intern

- Created responsive and user-friendly web pages using HTML, CSS, JavaScript, and Reactjs.   **May 2024 - June 2024**
- Collaborated with the UX/UI design team to implement visually appealing and functional interfaces.   Remote
- Integrated front-end components with back-end services and APIs.

PROJECTS

Notes Management system *I ReactJs, Node.js, Express.js, MongoDb, Bootstrap*   **March 2024**

- Created a website for managing notes, allowing users to create, update, and delete notes with search functionality.
- Implemented JWT token and other authentication security features.

Job Portal App *I ReactJs, Node.js, Express.js, MongoDb, Bootstrap*   **January 2024**

- Developed a modern job portal application facilitating job posting and application processes.
- Administrators and recruiters can post, update, and delete job listings, while applicants can browse available jobs.
- Implemented JWT tokens, advanced authentication security packages, and filtering features.

RELEVANT COURSEWORK

- Database Management System
- Operating System
- Object Oriented Programming
- Web Engineering
- Data Structures and Algorithms
- Computer Architecture

TECHNICAL SKILLS

- **Programming languages:** C, C++, JavaScript
- **Frameworks & Libraries:** HTML, CSS, ReactJs, Bootstrap, TailwindCss, NodeJs, ExpressJs.
- **Databases:** MongoDb, MySQL.
- **Version Control:** Git, GitHub.
- **Other Tools:** Postman, Vercel, Vscode.
